

You will be graded on the following course objectives

1. Students will *develop a strong work ethic that includes collaboration with other Yearbook team members.*
2. Students will *learn and develop a greater attention to detail of work.*
3. Students will *learn to complete assignments in a timely manner.*
4. Student will *learn and execute the art of promotion.*
5. Students will *learn good design.*
6. Students will *learn the Treering software and use it to design their assignments effectively.*

Rules and requirements:

- Show up on time each week
- Be prepared
- Respect your peers
- Use school property appropriately
- Complete your assigned work each week
- Work hard and HAVE FUN!!!!

Plagiarism: Simply put. Do not do it.

It's one thing to copy a classmate or steal a paper from Sparknotes; it's another thing to stick something you found elsewhere into a yearbook that'll be published, poured over, and saved for years to come. I would rather you handed something in late than resulted to plagiarizing.

See school policy on academic honesty for a more detailed explanation of plagiarism.

Absence policy

If you are going to miss a class, let me know so that we can coordinate your completion of assignments on an alternate timeline.

Out of class Participation

while most work can be completed in class, in order to create the best yearbook possible, all of us are going to need to put in some extra time outside of regular class hours. Please expect this and plan for it. The nature of the school events we will be covering and with publishing deadlines you will need to put in some extra time after school and occasionally at home on week ends.

Individual Work

Assignment Day 1 : Evaluative photos

One the the first class meeting students will take photos during the break between morning and afternoon classes. We will evaluate the photos during the afternoon class for composition, resolution, theme and other information relevant to yearbook.
